

enFlow™ IV fluid and blood warming system video training

These training videos are designed to help you use the enFlow™ IV fluid warming system in your hospital

The instructional content within these videos are based on the specifications in the enFlow™ operator manual. Please refer to the operator's manual before using this device.

The enFlow™ system delivers the right temperature in the right place, at the right time, and the right way. It's designed for easy patient transport throughout the hospital.

Intuitive control for faster warming
